198 Market Lamb
Beginner Level

All dates are listed on the Tuscarawas County Fair Livestock Requirement Summary.

1. Member must own and raise one market lamb.

2. Read, study, and have a working knowledge of the 194R Sheep Resource Handbook for Market & Breeding Projects. Follow and complete all sections of the Member Project Guide on Page 2. Complete one or more topics of interest (Page 3), five activities in the beginning level (Pages 5 & 6), two learning experiences (Page 12), and two Leadership and Citizenship activities (Page 13). When doing activities from the book, have some type of proof showing what you actually did. A photo or short paragraph about it and not just a check mark beside the activity. **NO SECTIONS ARE OPTIONAL.**

3. Bring lambs to weigh-in and tagging on designated date.

4. Be able to identify 10 live body parts.

5. Be able to identify 5 breeds of sheep from a set of photographs.

6. Be able to identify the sheep jaw structures, 2 correct feet and 2 incorrect feet structures.

7. Be able to identify 3 considerations when choosing a market lamb.

8. Have a basic knowledge of lamb terms in the glossary.

9. Be able to identify 5 main nutrients and 5 grain products.

10. Be able to describe 2 common sheep diseases and the normal body temperature of a lamb.

11. Know at least one USDA Quality Grade.

12. Know at least 3 retail cuts of lamb and one wholesale section.

13. Have a working knowledge of a feed tag and be able to identify the parts of a feed tag.

14. Have a basic understanding of Sheep QA factors, injection sites and types.

15. Name a method of identifying sheep.
